TABLE II.

Variation in the enumerated District Populations since last Census.

This table compares the population of 1891 with that of 1881, but it is to be observed that the latter is occasionally more or less than the figures printed in the Census Report of 1881. The statistics in the present table give the population of 1881 for the district area of 1891. In several districts transfers of jurisdiction have taken place during the ten years, and in order to maintain accuracy of comparison, the population of the added or subtracted areas have been added to, or subtracted from, the district population of 1881, as returned in that year.
